Amendment dated September 24, 2009  
Response to Office Action dated June 25, 2009

**Amendments to the Drawings**

The attached two sheets of drawings replace the drawing sheets currently on file. In the drawings the German language legends have been changed to English.

Application Serial No. 10/595,332  
Amendment dated September 24, 2009  
Response to Office Action dated June 25, 2009

**REMARKS/ARGUMENTS**

The specification has been revised to effect changes required by the Examiner. Furthermore, a new set of drawings is submitted herewith wherein the German language legends have been changed to English.

All of the claims have been rewritten to overcome the claim objections and rejections under 35 U.S.C. § 112. In particular, it is submitted that Claim 2 now more clearly sets forth the invention.

Claims 2-15 and 17-20 stand rejected as being anticipated by Immonen.

Independent Claims 2, 6 and 7 all include the steps of determining the system statuses of both the end devices being called and the switching facilities involved by polling the databases of the end devices and the mobility/profile databases assigned to the switching facilities involved. Immonen fails to disclose the step of determining the system statuses . . . of the switching facilities involved by polling the mobility/profile databases assigned to the switching facilities involved. Furthermore, Immonen does not disclose the subject matter of dependent Claims 8, 9, 10, 15, 18, 19 and 20. Accordingly, the claims are not anticipated by Immonen.

Although it is submitted that the application is now in condition for allowance, if the Examiner believes that further issues remain, it is requested that he telephone the undersigned at 260-460-1692.
